HEALTHY FOOD FOR
GOOD HEALTH

PROFILE

Noppada Product Co., Ltd. was established in 2016. Located in Lamphun, Thailand. We are the leader of the manufacturer and the distributor of Black Garlic in Thailand, under the brand “B-Garlic”. Our production has international standard certified, we pride to be the only one certified by Food and Drug Administration of Thailand (FDA). Currently, we have more than 400 representative shops around Thailand. We also export to many countries. We provide the OEM Service to produce Black Garlic under the customer’s brand.

Quality, healthy and food safety are keys to driving us to provide the best of Black Garlic to customers.

OUR VISION

We determine to be a leader of food innovation to produce and distribute healthy food to satisfy customer needs, under the concept

“HEALTHY FOOD FOR GOOD HEALTH”.

ACTIVE INGREDIENTS OF B-GARLIC

INGREDIENTS	BENEFITS
S-ally L-Cysteine	Reduce blood viscosity, improve blood circulation, lower cholesterol, prevent atherosclerosis and reduce the occurrence of blood clots.
Arginine	Stimulate cells to increase collagen production, secretion of growth hormone and expansion of blood vessels.
Polyphenol	Best antioxidants to boost the body’s immune system.
Proline	Slow down the cellular degradation, build muscle and produce the collagen.
Leucine	Control the appetite and build muscle.

WHY BLACK GARLIC ?

Black garlic is a healthy food made from fresh garlic by controlling the temperature and humidity for 30 days, the sweetness and texture will be increased like dried fruit and jelly which totally different from raw garlic that contains a pungent taste.

Black garlic contains benefit more than fresh garlic, antioxidant increased 2 times. Moreover, the main active substance can prevent Cancer and Alzheimer, reducing the risk of cardiovascular disease, control high blood pressure, diabetic, and blood sugar level.

NOPPHADA'S BLACK GARLIC

We harvested fresh garlic from our contract farmers which controlled by Good Agriculture Practices (Thailand's GAP). All our fresh garlic will be checked the harmful chemical residues then selected and removed the root before going to the production line. We produce Black garlic with modern technology and accuracy that controlled temperature and humidity, without any chemical and preservative added in order to get the best Black garlic. We also get many rewards from Government and many leading companies in Thailand to guarantee our innovation and quality. We also never stop to develop our innovation.
